ICE-Trade® Shore Meters

The Shore hardness testers, for Shore A and Shore D are designed to :

- ASTM D 2240
- DIN 53505
- ISO 868
- NFT 51-108

The Shore A hardness testers can be used in the range of 10 to 90 Shore A, and the Shore D testers of 30 to 90 Shore D.

Both have an accuracy of ± 1 Shore A or D, and a scale of 1.

As an option a control device can be supplied, checking the accuracy, and a drag pointer for reading of the highest measured value.

For authorized tests the Shore meters must be checked annually by authorized test centers to DIN 51300.

The IT Shore Meters come with an etui.

For further information, please contact us.
